

# THE LUCKY LOSERS

## STANDIN' PAT

*"An inventive, hypnotic spin on Blues, classic R&B, with a twist of Americana"*

San Francisco-based band **The Lucky Losers**, led by veteran artists **Cathy Lemons & Phil Berkowitz**, return after winning five *Independent Blues Awards* in 2021.

**STANDIN' PAT**, with 11 original tracks, sits like a needle on the groove of something uniquely American. Their signature formula is a mixture of blues, retro soul, and Americana. Lemons' voice is both gritty and angelic. Berkowitz's big harp sound is ever-present on this album as he leads the charge and punctuates every line. Their vocal blend is made in harmony heaven and long-time producer **Kid Andersen** uses it to great effect.

From the quick two step *Rich Strike* about a nobody horse who won the Kentucky Derby, to a battle cry for American unity in the funky *Somewhere in the Middle*, to songs that describe Americans on the move, this album addresses the challenges, disappointments, and even the eventual flight of a struggling American psyche.
